# Talent Connection Job Expo

This year, we were able to have many vendors that came with a special mission: to hire individuals of all abilities. Participants were able to listen to our keynote speaker, Jim McCann (CEO of 1800 Flowers, and founder of Smile Farms), and guest speakers Assemblywoman Monica Martinez and County Executive Bruce Blakeman. Our Senior CEO & President Robert Budd kicked off the day with positive words for the audience to get them ready and excited for a day of opportunity! We also were able to highlight two of our own employees, who while facing challenges are thriving in their careers. A huge congratulations to Mark and Samantha! Several of our job seekers were offered jobs as a result of the event and family members continue to call daily inquiring about the employment services we offer at FREE. Thank you to all who came and we wish for huge successes moving forward in everyone's job hunt!

# Intellectual / Developmental Disabilities

FREE has continued to focus its efforts on methodically and gradually growing the Organization by leveraging its existing partnerships in the community and amongst our oversight bodies strategically. In addition, teams have also made significant efforts to look internally for services to provide day and residential opportunities to those that may not be accessing the full array of services available to them.

FREE eagerly anticipates a promising future as we actively connect with those we support. In line with our dedication, FREE remains unwavering in our conviction that the well-being of the individuals we support should be the paramount principle guiding all our endeavors.

## Renovations & The Re-Opening of Smithtown IRA

The Smithtown IRA opened in 1991 and is home to eleven adults. During the renovation, the residents moved temporarily into two FREE respite houses with their staff members who ensured their programs and services went uninterrupted. During their four-month absence from the home, an extensive interior and exterior renovation project ensued including a new kitchen, bathrooms, refreshed bedrooms, and a redesigned living room that better meets their needs. The staff office space was upgraded and the septic system, driveway and landscaping were replaced.

## The FREE Players Perform at The Lincoln Center

The FREE Players Drum and Bugle Corps took bloom and put on an exhilarating performance at Lincoln Center's Big Umbrella Day on July 1st, 2023. With both drums, dancers, and flags, the FREE Players placed smiles on every single person in the audience. It was so wonderful to see the support they had gotten!

## PreVocational Services Launch at FREE Brentwood

FREE was funded to create services for Office Skills Training, Custodial Training and Pre-Vocational services. Our 10-week training program prepares people for a career by working on clerical skills, job skills, interviewing, resume writing, team building skills, community relationships, and how to dress for success.

# Behavioral Health

FREE has been providing Behavioral Health services to individuals for over forty-five years. FREE has vast experience working with individuals with serious and persistent mental illness (SMI) and legal/forensic backgrounds; those with SMI and co-occurring disorders of substance abuse and those with SMI and Developmental Disabilities. In serving these individuals over the years FREE has developed strong and long-lasting professional partnerships with a multitude of providers. FREE is committed to providing housing and support services to all individuals with SMI and has not excluded those individuals with co-occurring disorders.

This past year, we are thrilled to share our OMH Sunrise Crisis Respite Program opened. This program follows a Residential Crisis Support model, for those 18 years and older, that provides individuals with concentrated short-term interventions when experiencing psychiatric crisis in order to avert or delay the need for emergency room stabilization or acute psychiatric inpatient hospitalization. This program is designed to stabilize and transition individuals back into the community.

Furthermore, we are thrilled to have expanded our mental health services to children, further allowing children to get the support they need.

## Children's Services Expansion at Oakdale

The mental health outpatient program is a free standing entity that is open to the public offering initial screening services, psychiatric evaluations, medication therapy, psychotherapy, family therapy, consumer advocacy, psycho-education, information, treatment planning, and referral

## OMH Crisis Respite Support Program Officially Opened

We celebrated the opening of our latest community support program, Sunrise Crisis! The Residence is a home like setting where up to six individuals experiencing a mental health crisis can receive essential services during a 28 day stay. Individuals have access to the 24-hour team of staff which includes a Community Support Specialist (CSS), a Peer Support Specialist and a Certified Alcoholism and Substance Abuse Counselor (CASAC).

## Look Around, Look Within Mental Health Awareness Event

We celebrated Mental Health Awareness Month with art, music and a bit of advocacy at FREE Old Bethpage. The event featured artwork by FREE's artists, guest speakers sharing their experience, and Mental Health Advocacy Education.

# Traumatic Brain Injury

The Traumatic Brain Injury (TBI) waiver philosophy is to provide complete freedom of choice. In order to continue to work toward its mission the Structured Day Program's focus is to build skills that are important to maintain a competitive employment or volunteer job in the community. We are thrilled the TBI Structured Day Program has expanded the number of people supported and increased opportunities out in the community.

Individuals in our TBI program build important skills which includes communication skills and the best way to approach a customer; focus and attention to the task; and appearance. We structure our day to complete individual work upon arrival and then we engage in a group activity that focuses on a topic or skill for job readiness. The day concludes with either individual work or group activity of their choice. The group likes to also schedule special outings to engage in the community, such as museum, shopping, or simply walking in the park.

This process leads to personal empowerment, increased independence, greater community inclusion, self-reliance and meaningful productive activities. We look forward to further expanding in the coming year.

## Angelo Featured in Season 2 of *See Us, Hear Us*

Angelo is a TBI survivor due to an arterial vein malformation. Angelo shared his story of recovery and how the services he received helped him achieve his goal of walking without a cane.

# Office of Addiction Services and Supports

*Photos from the Ribbon Cutting Event at our Oakdale Location*

FREE is officially an OASAS provider! This marks a significant milestone for FREE, we have been persistently pursuing an official OASAS certification for many years in an effort to broaden and better integrate our services to those with substance use/addiction disorders. This new integrated service allows FREE the opportunity to deliver highly individualized, person-centered, comprehensive care to improve the lives of those we currently support and to engage people who are beginning their recovery journey.

FREE will work closely with the OASAS Regional team, FREE's clinical experts, Office of Mental Health and other government partners to design a comprehensive system of addiction services for prevention, treatment, harm reduction and recovery.

Our On Demand Narcan Training Program teaches techniques to save the life of a loved one, friend, co-worker, neighbor or anyone who is experiencing an overdose caused by prescription narcotics or heroin. Our 30 minute training session provides the lifesaving, easy to use Naloxone (Narcan) as well as additional information needed to save a life.
